### SELECTED CASE STUDIES & PROJECTS

**Decore Ghar**, *Brand Development & Influencer Marketing*

- Contributed to the brand development and growth strategy during its early-stage market development.
- Planned and executed influencer marketing initiatives to strengthen brand visibility, audience engagement, and online presence.
- Analysed customer and return data to identify behavioural trends and generate insights for improving e-commerce performance.

**Beyou Store**, *Sales & Customer Data Analysis*

- Conducted in-depth analysis of sales and customer data to uncover purchasing patterns and business performance trends.
- Evaluated customer behaviour and retention metrics to identify key factors contributing to customer churn and repeat purchases.
- Delivered data-driven recommendations to support commercial decisions and enhance overall sales performance.

**AK Beauty**, *Shopify E-Commerce Development & Management*

- Developed and configured the brand's Shopify e-commerce store in collaboration with the brand owner and influencer Aqsa Khan.
- Managed product uploads, pricing, product information, collections, and overall storefront presentation.
- Worked directly with the brand owner to align the online store with the brand's products, positioning, and customer experience.

**DCORVO**, *E-Commerce Brand Development*

- Co-founded and developed an independent consumer brand, managing key aspects of its e-commerce and brand development strategy.
- Worked on product positioning, pricing, digital presence, content planning, and online growth initiatives.
- Applied market and customer insights to evaluate product opportunities and refine the brand's commercial direction.

**She Shoe Official**, *E-Commerce Brand Development*

- Developed and managed an independent footwear brand concept, focusing on product positioning, digital presence, and e-commerce strategy.
- Worked across brand identity, product presentation, pricing, and customer-focused online selling.
- Evaluated market opportunities and customer preferences to guide product and brand decisions.

**Pak Metrics**, *Pakistan Data Visualization Platform*

- Developed a data-focused platform presenting Pakistan's economic, social, and government statistics through interactive visualizations.
- Transformed complex statistical datasets into clear charts, comparisons, and visual insights for easier interpretation.
- Compared statistics across different Pakistani government and official data sources to identify differences, trends, and changes over time.
- Designed the platform to make public data more accessible and useful for research, analysis, and informed decision-making.
